Managing Perinatal Mental Health Problems: Forging ahead from evidence and experience
Tuesday 8th December 2015

A Conference hosted by Perinatal Parent-Infant Mental Health Service (PPIMHS) and NELFT Medical Education

“Perinatal mental illnesses are a major public health issue that must be taken seriously. There has been significant progress in knowledge and attitudes about tackling perinatal mental illness in recent years, and some areas of the UK have seen a growth in specialist services.” Dr Alain Gregoire, Chair of the Maternal Mental Health Alliance.
